EDUCATION

The University of Colorado Boulder | Boulder, CO

May 2028

B.S. in Computer Science, Minor in Data Science

Relevant Courses: Data Structures, Design and Analysis of Database Systems, Introduction to Data Science, Software Development Methods

PROJECTS

StudentSteals - AI Student Finance App

March 2026 (CU Hackathon)

- Built a full-stack AI powered mobile web app using React and Python flask, integrating Google Gemini and Google Places APIs to deliver hyperlocal student deals and personalized financial coaching.
- Designed and implemented a bank sync flow with real-time transaction categorization, a conversational AI budget coach, and a live map displaying nearby student deals.
- Leveraged the Google Places API to discover nearby businesses and surface student deals through a combination of real user reviews, business data, and AI-generated saving tips.

Rundown - College Forum Web App

October 2025

- Worked with a team to build a web-based campus forum where students can join communities, find subleases, communicate with peers, and locate lost items.
- Engineered the backend and frontend infrastructure using PostgreSQL, Node.js, and React, implementing authentication, role-based user permissions, and responsive UI components integrated with backend APIs.

Illuminated speaker system

July 2024

- Developed a speaker system with passive infrared motion detection and LED lighting synchronized to audio.

EXTRACURRICULAR EXPERIENCE

Software Developer | CU Hyperloop | CU Boulder

January 2025 - Present

- Developed and optimized navigation software for a student-built hyperloop capsule, improving sensor data reliability and system performance through better serial data handling and filtering algorithms.
- Integrated Arduino systems to connect valves, pumps, and sensors with the capsule's navigation software.
- Mentored new members on the team's software development workflow and system architecture.

Apex SAT Officer | Apex SAT | Nonprofit

September 2023 - May 2024

- Delivered personalized SAT instruction to students worldwide, and led review sessions for up to 100 students covering key math and reading strategies.

PROFESSIONAL EXPERIENCE

Course Assistant | University of Colorado, Boulder | Boulder, CO

August 2025 - Present

- Designed and led tailored recitation sessions and provided 10 hours of weekly tutoring for CSCI 1300 students, guiding them in debugging C++ programs and strengthening core computer science concepts to support academic success.

Tutor | Kumon Math and Reading Center | Colorado Springs, CO

April 2022 - May 2024

- Tutored students in math and reading to strengthen foundational skills, reinforce key concepts, and improve overall academic performance.

Digital Marketing Intern | Financial Leadership Club of America | Remote

Summer 2023

- Led digital marketing campaigns for a national business camp that introduced high school students to entrepreneurship and business fundamentals.

TECHNICAL SKILLS

Certifications: TestOut Network Pro Certification

Programming Languages: Java, C++, Python, SQL

Frameworks & Libraries: React, Node.js

Software Tools: Git, GitHub, Arduino IDE, VS Code

Databases: PostgreSQL, MySQL

Technical Areas: Data Structures & Algorithms, Object-Oriented Programming, Full-Stack Web Development, Database Design
